Jamie's

I met Jamie when we both presented at a recruitment event for Marlborough Chamber of Commerce. Jamie's skills, experience and insight into the sales process was really impressive and the main reason why I contacted him for some 1-1 sales coaching. I highly recommend Jamie for his expertise as well as how he delivers his coaching. It is client led and Jamie follows up with very helpful action points to keep you on track In addition to this, Jamie generously shares helpful guides and examples. Thank you Jamie!

Social Media Training

Testimonial from Director of a Service Business:

“Your ideas not only make sense, but they work. The time you spent with me to refine my understanding of marketing and social media has encouraged me to take the step; which before seemed daunting, into the world of social media marketing. Thank you for taking the time with me in person to customize the sales training so that it was directly applicable to my business.”

Easy to follow instructions, engaging conversations and results as promised!

That probably sounds too good to be true. But, it is exactly how I would describe Jamie's coaching technique. He made me feel at ease, gave me plenty of support (and still does), loads encouragement and planned his coaching around my availability, giving me time to complete each task.

Highly recommended and very passionate about his business.
